

## C211C (10"-26") SWING ARM TIRE CHANGER

High strength steel swing arm

Clockwise and counterclockwise rotation high precision turntable, plus optional upgrade high impact bead blaster system

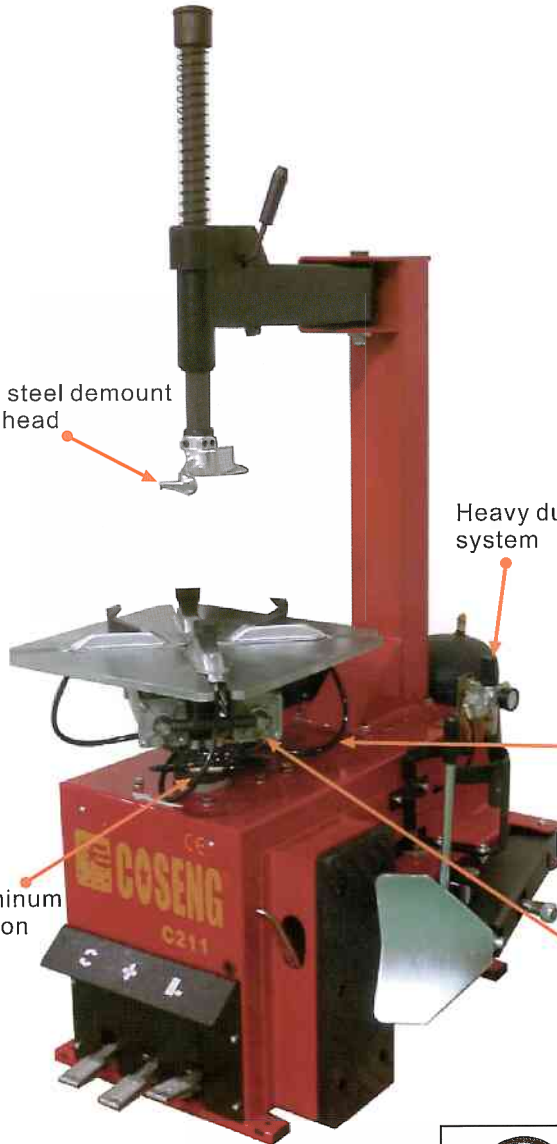

Forged slide guide clamps (one piece)

Professional mechanical design

High grade steel demount / mounting head

Heavy duty FRL system

Steel / aluminum rotating union

Professional "4 in 1" inflation gauge  
1. Draw air 2. Pressure testing  
3. Deflate 4. Inflate

Easy demounting

Bead lever work excellent with mounting head

High quality air hoses from Japan

All steel connector

CE reverse switch from Germany

### Technical data

Working pressure	8bar
Outside clamping	10" - 24"
Inside clamping	12" - 26"
Max wheel diameter	47"
Max wheel width	15"
Shipping weight	245kg
Voltage options	110V/220V/380V 1Ph/3Ph 50/60HZ
Packing size	115*77*100cm

### OPTION UPGRADE

- DAAL arm upgrade
- DAS arm upgrade
- IP or IT bead blast system upgrade
- WL10 wheel lift upgrade
- Motorcycle clamping upgrade
